

ASCA National Model Training

The American School Counselor Association (ASCA) National Model was adopted in 2003 as a framework for a comprehensive developmental school counseling program. ASCA is data-driven program, aligned with state and national competencies, demonstrating accountability to all stakeholders, and supporting **ALL students**--academically, with career/college readiness and socially/emotionally (aka soft-skills), by spending the recommended 80% of counselor time in Direct Services to students. The ASCA Model is based on best-practices & evidence-based school counseling programs in the United States.

ASCA National Model Trainings for School Counselors & closely related Professionals — District & individual rates

Hands-On ASCA workshop, 1 CEU offered --15 hours—2-4 hours follow-up via Skype or Face-Time -- you'll also be ready to apply for Recognized ASCA Model Program (RAMP) national recognition.

- **How to implement the ASCA National Model- step by step--** based on individual school data & needs
- **Guaranteed to make the ASCA National Model relevant and do-able.** Prove to Administrators, School Board Members and all stakeholders the importance of School Counselors, and that following the ASCA National Model means that school counselors spend 80-85% of their time in Direct Services to ALL students and 15% of their time in Indirect Services.
- **All participants will leave the training with a working ASCA National Model framework tailored for their specific school.**
